### *About us...*

As a global leader in healthcare, GCBT provides safe and effective solutions for the evolving needs of the industry. Headquartered in Yongin, South Korea since 1967, we specialize in the development and manufacture of plasma derivatives, preventive vaccines, recombinant proteins and therapeutic antibodies.

After more than 50 years in business, we are an internationally recognized specialty biopharmaceutical company. GC Pharma employs over 5,000 people in its 15 subsidiaries worldwide. Our GCBT Montreal subsidiary (located in the St-Laurent TechnoParc) is the only intravenous immunoglobulin (IVIG) and albumin manufacturing plant in Canada. This state-of-the-art facility marks the beginning of a new chapter in the history of the Canadian biopharmaceutical industry.

The products manufactured in this facility will provide key therapeutic solutions for the treatment of patients with infectious and immune diseases, severe burns and those needing blood-volumizing agents.
